

# **METACOINCAP**

Decentralized platform for token projects that have an airdrop or pre-sale front.

**Whitepaper**

## **What is METACOINCAP**

Metacoincap is a platform for new token projects. On this platform, everyone will be able to expose their crypto project, as well as offer their services. Before placing the project on our website, the project undergoes a thorough moderation associated with the project proposal and the project organizers. Our team carefully checks any project in order to avoid fraudulent projects on our platform as much as possible.

## **Listing of crypto projects and moderation**

What projects can be placed on our Metcaoincap platform.

If you have tokens or coin projects, you can make a listing on our platform, providing a detailed description of the project, social networks, teams, a presentation video, a Token Audit document, a product or service that your project will offer, feedback contacts and the official mail of the project . If you have an NFT collection or project, you can open a store with us

and add your collection with a detailed description. If you want to get to the top, you can use our ward service as a reward. After paying with BNB, you will receive a META token.

In the future, we will develop artificial intelligence that will speed up project moderation and this function will become automatic.
